## Customer Mode Pad

*The new DORMA Customer Mode Pad is a sophisticated tool that gives the customer greater control over their entrance.*

*Through simple one touch operation, the end-user can have easy access to a range of options never made available before.*

### Customer Approach Alarms

- Optional alarms sound for 2 seconds to notify customers of an approaching person
- Three optional alarms for customers to choose from
- NOTE: 01 Series Option Board required

### Pin Coded Security & Locking Features

- The Mode Pad is pin-coded to prevent unauthorised mode changing
- Pharmacy Lock can be activated to allow the door to open and lock in a set position for secure transactions

### People Counting Function & Door Cycles

- Ideal for customers who wish to monitor traffic flow
- Displays the number of people entering and exiting
- Displays the number of door operations
- NOTE: People Counting Kit required

### Climate Control

- Variable reduced opening distances
- Ensures less disturbance to internal heating or air conditioning

### Diagnostic Feedback

- Allows customers to self diagnose a problem and minimise service callouts
- Service messages scroll across the screen identifying a problem
- i.e “Fire Alarm Active” / “Obstruction” / “Power Failure”
